

"Nivala felt like a safe alternative."

- JOHANNA KUTUNIVA

We are looking for new residents to move to Nivala - is this your golden opportunity?

Is your dream home in a rural landscape, near a school, services and extensive leisure activities? Is a safe and stable home environment and a more affordable living important to your family? Do you see a return to roots in your golden horizon, back to the place where you were born and near your relatives? Or would it be more convenient to stay in your home town after a workday instead of commuting?

In Nivala we focus on making everyday life smooth and enjoyable for the townspeople. We offer affordable and spacious land lots in addition to reasonable, as always, costs of living. We keep our villages and their residents active by investing in schools, industries and free time services - we give people of all ages many possibilities to live a happy life.
